

RiveOut

Extraction tool for RivePipe

Safe

Fast extraction

TECHNICAL CHARACTERISTICS

Range of Ø19,5mm – Ø35mm application

THE RIGHT TOOL

Thanks to RiveOut, we are able to close the circle of use of the RivePipe, an innovate solution that is specially designed to perform the removal without damaging the concrete wall

By removing the RivePipe, the potential risks that can be caused by leaks between the joint of a conventional PVC pipe and the concrete are eliminated.

The result is a clean, plastic-free, uniform and smooth hole in the wall. Rive Out can be used in all projects with RivePipe.

INSTRUCTIONS FOR USE

RiveOut is the specially designed removal tool to quickly, easily and effortlessly remove the RivePipe from the concrete in a few seconds without damaging the wall.

 Once the wall has been stripped, the RiveOut is inserted into the RivePipe

2. With help of the RiveOut, the RivePipe is removed from both sides of the wall

3. Both parts of the RivePipe are stored for later reuse

This information and, in particular, the recommendations regarding the application and use of the product are given in good faith, based on the current knowledge and experience of RIVESTOP SYSTEM, S.L. on the products when they are properly stored, handled and applied within their useful life, and in normal situations. Before applying the product, the instructions for its application must be read and use of the product, nor for its incorrect treatment or storage.
