

Foam Cleaner

MULTI-USE PU FOAM CLEANER

Multi-Use foam PU foam cleaner in spray form, for the removal of uncured PU construction foam from tools and substrates.

Main Applications

- Cleaning of foam guns
- Cleaning of valves of PU foam aerosol cans
- Removal of uncured foam from surfaces

Application Instructions

Application temperature

Air temperature during use: -10 °C to +30 °C.

Application method

- Shake the can vigorously at least for 5-10 seconds.
- Remove the plastic cap from the can and attach the spray nozzle.
- Spray the cleaning agent onto uncured foam, let it take effect and wipe if needed.
- When cleaning a foam gun clean the surface of the gun first.
- Then screw the foam gun tightly onto the can and spray the cleaning agent to clean the inside of the gun.
- Wait a couple of minutes and spray again to finish the cleaning process.
- When working with the gun always keep the can upside down.

Foam Cleaner

Cleaning

Cover with inert absorbent (e.g. sand), collect and place in a suitable container or let vaporize.

Packaging

500ml cans, 12 per box

Storage and shelf-life

- Guaranteed shelf life is 24 months from production date if stored in unopened packaging in a cool and dry place at +5 °C to +30 °C.
- Must not be stored above +50 °C, nearby heat sources or in direct sunlight.
- Store and transport in a vertical position.

Limitations

- Not suitable for removal of cured PU foam.
- Please observe the expiration date!

Safety regulations

- Pressurized canister.
- Use only in well-ventilated areas.
- Do not smoke during application!
- Use protective gear when necessary.
- Keep out of the reach of children.
- See label and safety data sheet (SDS) for more information

Technical data

Properties	Value	Unit
Base	Acetone	
Appearance	Aerosol	
Colour	Colourless	
Odour	Strong acetone smell	
Density	<0.8	g/cm ³
VOC Content	99 – 100	%
